

Hunterdon Central Robotics Team 3637 Robotics Support Association

P.O. Box 2544, Flemington, NJ 08822

Email: team3637rsa@gmail.com Website: team3637.com

To Whom It May Concern,

Hunterdon Central's Robotics Team 3637 is a proud participant in the internationally acclaimed FIRST (For Inspiration and Recognition of Science and Technology) Robotics Competition.

FIRST gets young people involved in science, technology, engineering, mathematics, and robotics. As a business partner, you can be instrumental in providing opportunities to develop future scientific leaders.

Donations from our sponsors help our team tremendously. We proudly mentor 6 *FIRST* LEGO League Teams for students in our community. We engage in various outreach initiatives, including developing a STEM curriculum for underserved schools in Brazil, facilitating STEM activities for seniors at a local assisted-living facility, and collaborating on robotics projects with children from Kindergarten through 5th grade. These are just some ways that we use the motto “***Foster STEM Locally, Make a Difference Globally***” as a core inspiration throughout our season.

We are proud to announce that the 2023-2024 season has been our most successful yet, made possible by the generous support of our sponsors. Our team earned both the prestigious Impact Award and first place in the robot game at the Montgomery, NJ regional competition.

Additionally, we achieved an impressive ranking of 14th out of 147 teams in our district. This success led to our participation in the *FIRST* World Championship in Houston, where we competed against top teams from across the nation.

Designing, building, and refining a robot requires more than just time, vision and creative minds--it requires funding from generous sponsors. Our significant expenses include the parts and components necessary to build competition and prototype robots, the cost of tools and safety supplies, competition fees and transportation costs, as well as expenses associated with community outreach.

Please consider sponsoring our FIRST Robotics team as detailed on our attached sponsorship form. All donations are tax-deductible. If you have any questions or are interested in mentoring opportunities, please email us at Team3637RSA@gmail.com. To learn more about the program, please visit the FIRST website at <https://www.firstinspires.org/robotics/frc>. You can meet our team and read more about our efforts and achievements at www.Team3637.com or by visiting our team's YouTube channel (@team3637).

Sincerely,
HCRHS Team 3637 Robotics Support Association (RSA)
